Professional Profile

I'm a Full-Stack Software Engineer with 10+ years of experience designing and developing web applications across healthcare, real estate, career service, e-commerce, solar energy, lending, and point-of-sale (POS) industries. Leveraging expertise in PHP (Laravel), TypeScript, JavaScript, React, Next.js, and Vue.js, with a strong focus on translating business requirements into scalable, reliable, and maintainable web applications.

Tech Stack Summary

Core Technologies: Laravel, PHP, Vue.js, Nuxt, TypeScript, JavaScript, React, Next.js, MySQL, Tailwind CSS, REST APIs, Pinia, Redux

Other Technologies: Node.js, NestJS, Fastify, CodeIgniter, Laravel Nova, Hasura, GraphQL, MongoDB, PostgreSQL, Microsoft SQL Server, Ionic, jQuery, Material UI, Bootstrap, Ant Design, Twilio SendGrid, Twilio SMS, Firebase Cloud Messaging (FCM), Pusher, Socket.IO, Amazon S3, Amazon SNS, Docker, Mixpanel, Git, PHPUnit, Cypress

Work History

01.2025 – 05.2026 **Software Engineer II at Career TEAM** | North Haven, United States

Tech stack: Next.js, NestJS, PHP, MongoDB, MySQL, Twilio SendGrid

- Contributed to the development of participant and student applications, job boards, timesheets, job training tools, and email notifications using Twilio SendGrid
- Contributed throughout all phases of the development lifecycle, from requirements gathering, planning, development, testing, client demo, and deployment
- Collaborated with cross-functional teams and supported other development projects to ensure timely delivery of high-quality features and solutions

08.2024 – 11.2024 **Web Developer at Japan Livline Co., Ltd.** | Osaka, Japan

Tech stack: Laravel, CodeIgniter, jQuery, Bootstrap, MySQL

Implemented admin-side enhancements and new functionality based on the project specifications for sewer maintenance (gesui-mente.or.jp), manufacturing (matix.co.jp), and trading (daichu.co.jp)

05.2023 – 08.2024 **Software Engineer at Lanex Corporation** | Cebu, Philippines

Tech stack: Next.js, Laravel, Fastify, Hasura, GraphQL, PostgreSQL, MySQL, Tailwind CSS, Material-UI, Ant Design, Twilio SendGrid, Twilio SMS, Amazon SNS

- Implemented enhancements and features for various projects, including real estate service platform and multi-tenant healthcare provider solution
- Integrated Optimal Blue and Essent pricing engines into real estate service platform to support mortgage pricing and loan calculation workflow
- Implemented authentication and notification functionality, including OTP (One-Time Password) verification using Twilio SMS and Amazon SNS, and email notifications through Twilio SendGrid

09.2022 – 05.2023 **Web Developer at Solgen Power** | Pasco, United States

Tech stack: Vue.js, Laravel, Pinia, Tailwind CSS, Ionic Framework, Laravel Nova, Firebase Cloud Messaging (FCM), Mixpanel, GraphQL, PostgreSQL, Cypress

- Developed enhancements and features for mobile application using Ionic/Vue.js, and customized Laravel Nova to meet project requirements
- Integrated Mixpanel analytics to capture and analyze user interactions within the application
- Implemented push notifications using Laravel FCM for NPS survey, news and announcements
- Performed application testing using Cypress and Laravel PHPUnit

03.2019 – 10.2022 **Senior Technical Specialist at Alliance Software Inc.** | Cebu, Philippines

Tech stack: Vue.js, React, jQuery, Material-UI, Bootstrap, Laravel, CodeIgniter, MySQL, Socket.IO, Pusher

- Developed and maintained functionality for various projects, including Japan-based social lending platform, web-based POS system and e-commerce solutions
- Designed and developed delivery-partner service integration with Grab and Foodpanda for one of the largest fast-food chains in the Philippines
- Contributed throughout the full project life cycle including planning, designing, development, testing, and deployment
- Documented all technical work according to the company's standards and methodology

07.2014 – 03.2019 **IT Specialist at St. Vincent General Hospital Cebu, Inc.** | Cebu, Philippines

Tech stack: Vue.js, React, jQuery, Laravel, CodeIgniter, Material-UI, Bootstrap, MySQL, Microsoft SQL Server, Socket.IO

- Performed data migration from Comlogik HIMS to Bizbox HIS
- Developed a support ticketing application for Bizbox HIS related issues
- Developed and integrated a third-party data solution into Bizbox HIS
- Developed web-based automation applications for medical records, queue management and internal messaging

Education

06.2010 – 03.2014 **Bachelor of Science in Information Technology**

University of Cebu (Main Campus)

Sanciango St. Cebu City, Cebu, Philippines
